MBATA LAWRENCE CHIBUZOR B.Sc

Full-Stack Software Developer

Nigeria | +2347062864478 | mbatalawrence@gmail.com

Portfolio | LinkedIn | Github

PROFESSIONAL SUMMARY

Full-stack software developer with 2+ years of hands-on experience building production-ready software using React.js, React Native, Next.js, Node.js, and Springboot. Demonstrated expertise in developing scalable RESTful APIs, Mobile apps, optimizing database performance, and delivering responsive, mobile-first user interfaces. Passionate about clean code, test-driven development, and collaborative engineering.

TECHNICAL SKILLS

- FRONTEND: React.js | Next.js | Typescript | Tailwind CSS | Shadcn UI | Zustand | Redux.
- BACKEND: Node.js/Express(JavaScript) | SpringBoot(Java) | REST | GraphlQl | JWT.
- MOBILE: React Native.
- DATABASES: PostgreSQL | MongoDB | SQL.
- TOOLS: Git/Github | Docker | Vercel.
- METHODOLOGIES: Restful API's | CI/CD | SSR/ISR | System Design | Responsive design | Cloud deployment | Agile/Scrum | Microservices | Database Migration | Git flow | Unit Testing.
- SOFT SKILLS : Problem-solving | Code-review Participation | Documentation | Drive | Initiative | Critical Thinking | Collaboration | Team Oriented | Multitasking | Time Management.

PROJECTS

REAL-TIME COLLABORATION PLATFORM | React, Express, Socket.io, Typescript, Tailwind

- Engineered real-time scalable chat platform with multi-room support and user-presence tracking using Socket.io
- Implemented JWT authentication with role-based access control , securing all communication channels
- Optimized webSocket connections and database queries, supporting 500+ concurrent users with sub-second latency

FULL-STACK E-COMMERCE PLATFORM | Nextjs, Typescript, Express, Paystack, Zustand, Shadcn UI, Tailwind CSS

- Engineered Large-scale e-commerce solution, integrating complete product catalog, cart management, payment processing with paystack, and automated email notification
- Implemented cart state management with zustand featuring real-time updates, quantity adjustments and dynamic total calculations, contributing to a 30% reduction in cart abandonment
- Optimized platform performance with Nextjs server-side rendering and route handlers, improving page load speed by 45%
- Built responsive role-based dashboard using Shadcn UI and Tailwind CSS, achieving 100% mobile compatibility and enabling role-specific access for buyers and administrators

BACKEND MEDICAL MANAGEMENT SYSTEM | Node, Express, Typescript, JWT, Prisma ORM

- Engineered a comprehensive healthcare management solution with secure JWT authentication, role-based access control(admin, doctor, patient), and multi-level authorization middleware, serving 5+ user roles with granular permission.
- Architectured modular analytics engine using prisma aggregations (_count,groupBy,avg) for generating real-time insights including department-wise staff distribution, blood-type demographics, appointment analysis and basic model statistics improving operational reporting efficiency by 60%.

EXPERIENCE

WEB DEVELOPER

Freelance | Direct Clients | Remote

February 2025-present

- Engineered backend systems for an educational platform serving learners.
- Architected and deployed 15+ responsive web applications using React.js, Next.js, and Tailwind CSS for clients across e-commerce, education, and service industries
- Built RESTful APIs with Node.js/Express and PostgreSQL, reducing average response time by 35% through query optimization and indexing strategies

- Designed and built responsive, mobile friendly websites using React, Next.js and Tailwind for small businesses and personal projects

JUNIOR DATA ANALYST

Freelance | Remote

September 2023 - August 2024

- Designed Tableau Dashboards for 5+ clients transforming raw data into actionable insights.
- Built and maintained complex SQL queries to extract and analyze large datasets, improving query efficiency.
- Conducted end to end data analysis (cleaning, modelling, visualization) for e-commerce and healthcare clients, identifying trends that boost revenue.

PROGRAMMING INSTRUCTOR

Ecolyte Technical Academy

January 2021 - September 2023

- Developed and delivered comprehensive hands-on programming lectures in Python and SQL, ensuring students gained practical knowledge.
- Provided personalized tutoring, code reviews, helping students learn and master complex programming concepts.
- Implemented high-level assessment to monitor students progress resulting in a high satisfaction rate.

EDUCATION

Full-Stack Developer Course (2024)

Udemy | Online

Relevant Coursework : Frontend Development, Backend Development, Database and SQL.

Java Engineering Course (2025)

Udemy | Online

Relevant Coursework : Object-Oriented Programming, Springboot, RESTful web services, Data Algorithms

Self-directed Studies

Ongoing

Focus Area : AI fundamentals, System Design, Test-driven Development.
